♻️ RECYCLED CONTENT

♻️ RECYCLABLE

Up to 50% PCR or PIR, Flexographic Printing

INDEVCO Plastics produces environmentally friendly FFS film by using 30% post-industrial-recycled (PIR) resin from our in-house post-industrial plastic scrap, by downgauging film, by using water-based inks, and by eliminating waste going to landfill. These initiatives help our customers meet their sustainability goals, let's discuss your product needs to fulfill your own environmental goals.

INDEVCO Plastics manufactures 3-layer coextruded polyethylene VFFS film for efficient automatic filling of industrial products, up to 2800 bags/hour. Maintain a dust-free environment when filling pellets, powders, flakes, and granulate products. Request information about high seal performance, excellent puncture and burst resistance, high load stability, and anti-static properties. To meet your sustainability objectives, let's discuss postindustrial recycled (PIR) and post-consumer recycled (PCR) FFS options.

Markets

Building Materials, Chemical & Petrochemical, Food, Industrial Salt & Mineral, Lawn & Garden

FFS Film Specifications

Product Specs	Lay Flat Width: 14" – 39" Gauge: 1.0 mil – 6.5 mil Material: 3-layer LLDPE/HDPE tubular film with up to 30% PIR resins Density: 0.993 kg/cm ³ Capacity: 5lbs -100lbs	
Roll Dimensions	Core Options: Fiberboard or PVC Inner Core Diameter: 3"- 6" Roll Diameter: 24" – 48" (custom sizing available)	
Product Performance	Flexographic Printing: Front-to-back combination of up to 8 colors Haze Options: Standard or high optics Film Colors: Clear, white, custom UV Inhibitor 1-year protection	Gusseted tubing Embossing Micro perforations Anti-static, anti-skid, & anti-block additives

FFS Film Options

	Raw Materials		Packaging Recovery
	Raw Material Reduction	Recycled PE	100% Recyclable

FFS Film Benefits

The Largest Global FFS Film Producer	INDEVCO Plastics is a member of the multinational INDEVCO Group, which produces over 70,000 MT of FFS film a year, making the group the largest global FFS manufacturer and supplier for petrochemical industries.
High Speed Packaging	Run automatic machine lines with efficiency and speed with VFFS film suited for up to 2800 bags/hour.
Custom Print, Clarity, Gloss, & Stiffness	Personalize packaging with FFS Film to best suit your product needs with Flexographic printing options and film display properties.
Excellent Puncture & Burst Resistance	Contain product with confidence using the high strength properties of FFS Film preventing tears and ruptures.
